

In the claims:

Claims 1-16 cancelled.

17. (Currently amended) A method of making a medication, comprising the steps of making from an initial material an active medicinal substance in a therapeutic dose; making from the same initial material a potentiated medicinal substance produced by a homeopathic method; and ~~producing the medication from the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by a~~the homeopathic method to produce the medication.

Claim 18 cancelled.

19. (Currently amended) A method as defined in claim 17, wherein said ~~producing~~combining includes impregnating the active medicinal substance in the therapeutic dose with the potentiated medicinal substance produced by ~~a~~the homeopathic method so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

20. (Currently amended) A method as defined in claim 17, wherein said ~~producing~~combining includes dissolving the potentiated

medicinal substance produced by ~~a~~the homeopathic method in the active medicinal substance in the therapeutic dose so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

21. (Currently amended) A method as defined in claim 17, wherein said ~~producing~~combining includes introducing the potentiated medicinal substance produced by ~~a~~the homeopathic method into the active medicinal substance in the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

22. (Currently amended) A method as defined in claim 17, wherein said ~~step-producing~~combining includes introducing the potentiated medicinal substance produced by ~~a~~the homeopathic method and the potentiated medicinal substance produced by ~~a~~the homeopathic method simultaneously into an organism so that the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by ~~a~~the homeopathic method together make said medication in the organism.

23. (Currently amended) A medicine, comprising an active medicinal substance produced from an initial material in a therapeutic dose; and a potentiated medicinal substance produced from the same initial

material by a homeopathic method and combined with said active medicinal substance produced in the therapeutic dose.

Claim 24 cancelled.

25. (Currently amended) A medicine as defined in claim 23, wherein said active medicinal substance in ~~a~~the therapeutic is impregnated with the potentiated medicinal substance produced by ~~a~~the homeopathic method so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

26. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by ~~a~~the homeopathic method is dissolved in the active medicinal substance in ~~a~~the therapeutic dose so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

27. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by ~~a~~the homeopathic method is introduced into the active medicinal substance in ~~a~~the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

28. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by ~~athe~~ homeopathic method is introduced simultaneously into an organism with said active medicinal substance in ~~athe~~ therapeutic dose, together making said medication in the organism.

29. (Currently amended) A medication as defined in claim 23, wherein said active medicinal substance in ~~athe~~ therapeutic dose is atropine sulfate produced from atropine while said potentiated medicinal substance produced by ~~athe~~ homeopathic method is Atropini Sulfati C30 ~~obtained~~produced by a consecutive dissolving and shaking of the atropine in accordance with the homeopathic method.

30. (Currently amended) A medication as defined in claim 23, wherein said active medicinal substance in ~~athe~~ therapeutic dose is acetyl-salicylic acid produced from acetylsalicylic acid, while said potentiated medicinal substance produced by ~~athe~~ homeopathic method from the acetylsalicylic acid is aciolum salicylicum obtained by impregnation of a neutral substance which is milk sugar with a solution of acidum salicylicum with a potency C30 in accordance with the homeopathic method.

31. (Currently amended) A medication as defined in claim 23, wherein the active medicinal substance in ~~athe~~ therapeutic dose includes

1.00 ml of Prednizolon, while the potentiated medicinal substance produced by ~~athe~~ homeopathic method is 0.005 mg of potentiated prednizolon Prednizolon in 1200 dissolving) Cortex, C12 prepared in accordance with the homeopathic method by 12<sup>th</sup> centile dilution of prednizolone.

32. (Currently amended) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is insulin, while said potentiated medicinal substance produced by ~~athe~~ homeopathic method from insulin is Insulinum C30.

33. (Currently amended) A medication as defined in claim 23, wherein said active medicinal substance in ~~athe~~ therapeutic dose is zinc paste from zinc, while said potentiated medicinal substance produced by the homeopathic ~~medicinemethod~~ from zinc is Zincum Metallicum.

34. (Currently amended) A medication as defined in claim 23, wherein said active medicinal substance in ~~athe~~ therapeutic dose is Sarcolysin ~~dissolved~~ dissolved in potassium chloride, while said potentiated medicinal substance produced from the sarcolysin by ~~athe~~ homeopathic method is Sarcolysinum 200.

36. (Currently amended) A method of treatment with a medication, comprising the steps of making a medication including,

combined with one another, an active medicinal substance made of an initial material in a therapeutic dose and a potentiated medicinal substance produced by a homeopathic method from the same initial material; and introducing the medication into an organism.

37. (Currently amended) A method of treatment as defined in claim 36, wherein said active medicinal substance in ~~athe~~ the therapeutic dose and said potentiated medicinal substance produced by ~~athe~~ the homeopathic method together, combined with one another, form first the medication which is subsequently is introduced into an organism.

38. (Currently amended) A method of treatment as defined claim 36, wherein the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by ~~athe~~ the homeopathic method are introduced into the organism separately, to be combined with one another in the organism.
